Test Scenarios for TutorialsNinja E-commerce Website

Website: https://tutorialsninja.com/demo

1. Home Page
- Verify that the home page loads successfully
- Check top menu links: My Account, Wishlist, Cart, Checkout
- Validate main banner visibility
- Confirm featured products are displayed
- Click featured product → navigate to product details
- Change currency and verify reflected site-wide

2. User Registration & Login
- Navigate to Registration via My Account → Register
- Register using valid data
- Validate error messages for invalid or empty fields
- Login with valid credentials
- Validate login failure with incorrect credentials
- Test logout functionality

3. Product Search
- Search bar visible across all pages
- Search using full product name
- Search using partial keywords
- Validate "No results" message
- (Optional) Check auto-suggestions if applicable

4. Category / Product Listing Pages
- Navigate via menu to categories (e.g., Desktops → Mac)
- Verify product listings load under each category
- Check sorting (Price, Name)
- Test product comparison checkbox

5. Product Details Page
- Clicking product opens detail page
- Product image, price, availability, and description visible
- Quantity selector works
- Buttons: Add to Cart, Wishlist, Compare
- Verify visibility of reviews (if any)

6. Shopping Cart
- Add product to cart from product page
- Open cart via top menu
- Update quantity or remove item
- Validate total price calculation
- Verify correct updates after removal

7. Checkout Flow

- Navigate to checkout from cart
- Select guest or registered user checkout
- Verify registered user checkout option
- Enter billing and shipping details
- Choose payment and shipping methods
- Confirm order and check order summary
- Order placed → confirmation message shown

8. Wishlist & Compare

- Add product to wishlist (user must be logged in)
- Add product to compare list
- Validate comparison table
- Remove item from wishlist or comparison list
